Chapter	Content Description	Elaborations
Chemical Reactions I Chapter 5 (5 weeks)	Chemical reactions involve rearranging atoms to form new substances; during a chemical reaction mass is not created or destroyed (ACSSU178)	<ul style="list-style-type: none">★ Identify reactants and products in chemical reactions.★ Model chemical reactions in terms of rearrangement of atoms.★ Describe observed reactions using word equations.★ Consider the role of energy in chemical reactions.★ Recognise that the conservation of mass in a chemical reaction can be demonstrated by simple chemical equations.
